1. Personal Details of the Ph.D. Candidate

Name, First Name:

How do you know the applicant (e.g. Supervision of academic work; meeting at an academic conference)?

Qualifications

How do you rate the applicant according to the following criteria: Critical ability and judgement; ability to solve academic problems; knowledge and understanding of subject; ability to see his/her work in wider contexts; management of time and resources; social competence and team skills; social engagement.

What particular characteristics does the candidate possess? What makes him/her stand out from the group of doctoral students you have supervised to date?

2. Information regarding the Ph.D. project

Working title of the dissertation:

How do you rate the Ph.D. project with regard to the following factors: Innovation, methodological sophistication; academic / practical significance?

3. Information regarding the Provision of Supervision

Who is primarily responsible for supervising the project?

Are there any aspects of the project, methodological or with regard to content (e.g. in the case of a strongly interdisciplinary project), that require co-supervision by academic colleagues? Please provide the details of co-supervisors involved in the supervision of the project over an extended period of time (name, department or institute, role).

Please provide details of the planned supervision for this project (e.g. number of meetings, participation in a research seminar).

Are further measures planned in order to integrate the Ph.D. Candidate more fully in the academic community (e.g. within the framework of cooperation with other institutions, research trips etc.)?

Have you drawn up a formal supervision agreement with the Ph.D. Candidate? If so, please include a copy of the agreement with this form.

4. Information regarding the execution of the project

Are the materials and facilities needed for the project available?

To what extent has cooperation been established with other research institutions in order that the proposed Ph.D. can be carried out?

When did the applicant begin work on the dissertation, including preliminary work, e.g. preparation of the research proposal (month, year)?

When do you expect the dissertation / Ph.D. to be completed (month/year)? (Scholarships are normally awarded for a period of three years and can, if sufficiently justified, be extended for three and a half years.)

Notice: Everyone involved in the application and selection process must agree with the principles of good scientific practice as fixed by their university resp. by the "Guidelines for Safeguarding Good Scientific Practice" of the German Research Foundation (DFG).
